Ivan Kramarchuk

Apps I've been working on:

- Triplights

The app showing current social events, concerts and lectures on the map.

<https://itunes.apple.com/gb/app/triplights/id909719171?mt=8>

- WODProof

The app allows you to record your training, customize and share with our community.

<https://itunes.apple.com/il/app/wodproof-workout-video-timer-for-your-wod/id1130947789?mt=8>

+ 2 other applications are closed and removed from the AppStore

+ another application is protected by an NDA

My own applications:

- Translation Books

The app for reading books in foreign languages (learn foreign languages) and text-to-speech.

<https://itunes.apple.com/us/app/translation-books/id1417725809?ls=1&mt=8>

- Simple Servers Monitor

The app for quick check of availability of servers and sites

<https://itunes.apple.com/us/app/simple-servers-monitor/id1451353920>

- SamlibReader

Specialized application for reading books from the site Samizdat with memorizing the list of books, positions and appearance settings

<https://itunes.apple.com/us/app/samlibreader/id1127829505>
